

WHELEN[®]

ENGINEERING COMPANY INC.

51 Winthrop Road,
Chester, Connecticut 06412-0684
Phone: (860) 526-9504
Fax: (860) 526-4078

Installation Guide: M4 Fog Light Replacement 2015 Ford F-150

Internet: www.whelen.com
Sales e-mail: autosale@whelen.com
Canadian Sales e-mail: canadiansales@whelen.com
Customer Service e-mail: custserv@whelen.com

Installation

- Following the factory recommended procedure for your vehicle, remove the existing fog light/housing assembly from the vehicle.
- Disconnect the fog light connector and remove any hardware used to secure the fog light to the housing. Carefully remove the fog light from the housing.
- Install Fastex[®] grommets as shown. Secure the M4 lighthead to the mounting bracket using the mounting hardware provided.
- Insert the Lighthead/bracket assembly into the fog light housing as shown. Do not pinch or kink the lighthead wires.
- Use the two mounting bracket bolts to firmly secure the lighthead/bracket assembly to the fog light housing. Use the Locating Bolt to ensure proper vertical alignment of the lighthead.
- Return the fog light housing to its original location and following the factory recommended procedure, re-install it onto the vehicle.
- Extend the lighthead wires to its designated control switches. Refer to the instructions included with your M4 lighthead for detailed information on wire functions, fusing and general operation.
