

Raider™ Series

LINEAR-LED® FOR INTERIOR AND EXTERIOR DIRECTIONAL WARNING

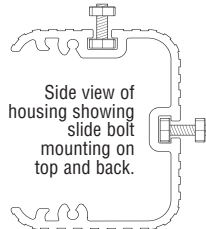

NEW PRODUCT!

Officially Licensed Warning
Lights Of NASCAR®

Keyway access hole allows for easy removal of slide bolts.

Side view of housing showing slide bolt mounting on top and back.

Small waterproof design and rugged aluminum housing provides the perfect combination for mounting inside or outside of your vehicle.

Ideal for special use vehicles and marine applications --- anywhere you need added attention demanding warning signals!

Unique slide bolt housing gives this warning light the most versatile mounting capability of any of our housed lighthead. Horizontal, vertical or upside down mounting make this the perfect light for a wide variety of applications on just about any vehicle.

FEATURES

- Compact size provides limitless possibilities for mounting... almost anywhere on any vehicle!
- Interior or exterior applications.
- 500 Series Linear Super-LED® lighthead in single or dual lamp models.
- Twenty-five Scan-Lock™ flash patterns to choose from, seven with Phase 1 and Phase 2, synchronization, plus eleven other patterns.
- May be mounted horizontal, vertical and even upside down.
- Slide bolt mounting channels on back and sides of the rugged aluminum extruded housing.
- Keyway access hole allows the slide bolt to be easily removed without having to open the end plates, making for easy installation.
- Pairs of single units may be synchronized to each other or to other Whelen synchronizing products.
- Dual unit lighthead are synchronized together. Each lighthead has its own Scan-Lock wire for alternate or simultaneous flashing the two lighthead as well as pattern control.
- Whelen Super-LEDs are superior high output, low current, vibration and moisture resistant for reliable, long-life operation.
- Two feet of 4C 22 gauge cable.
- Five year warranty.

- Dimensions: 2-3/8" (60mm) H x 1-7/8" (48mm) D x 5-1/2" (140mm) W (Single module)
11" (280mm) W (Dual module).
