

# Centurion™ Towman's Series

ROTATING HALOGEN LIGHTBAR FOR TOW & RECOVERY

C2000W00

C4000W00 shown with optional CICCLED, factory installed LED supplemental Brake/ICC light

***A bigger, bolder, brighter rotating halogen lightbar that's tough enough to take on the towing industry, including rollbacks!***

Rugged Centurion lightbars feature a wider profile and larger reflectors that deliver twice the light intensity of any other rotating lightbar on the market. A heavy-duty extruded aluminum base never warps or sags. Precision engineered double ball bearing motor assemblies plus the "shock mount" rotator plate design isolates motor and gear noises for surprisingly quiet operation.

## FEATURES

- Certified to meet SAE Class 1 requirements (all models).
- Standard length 60".
- Two rotator with "V" mirrors, or four rotator with diamond mirrors.
- Bi-level warning capability.
- 110,000 beam candlepower.
- Two or four 135 RPM motor assemblies, 540 or 1080 FPM total (flashes front and rear).
- Three year Full Factory Warranty on quiet and reliable double ball bearing motor assemblies.

- Standard: built-in LED brake/tail/turn signals, center 600 Series halogen worklights to the rear and front duplex halogen flashers.
- Standard amber end domes, clear center domes and clear lower level lens with color filters.
- Optional LED ICC/third brake light.
- Heavy-duty extruded aluminum base.
- Three steel bolt, cast aluminum mounting brackets.
- Snap-in 50 watt halogen lamps.
- Captive tongue and groove design secures dome to base with added moisture resistance.
- Parts change easily with only a screwdriver.
- Prewired with 20' driver side exiting cable.
- Dimensions: 6 3/8" (161mm) H x 12" (304mm) W x 60" (152cm) L.
- 12 VDC.

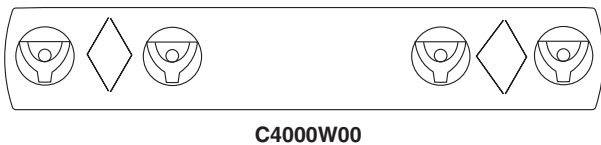

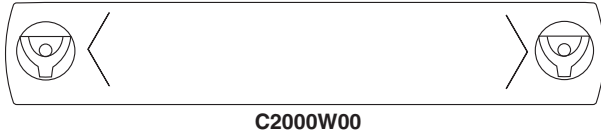

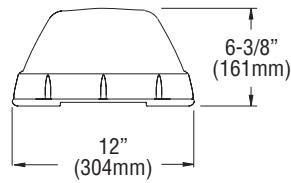

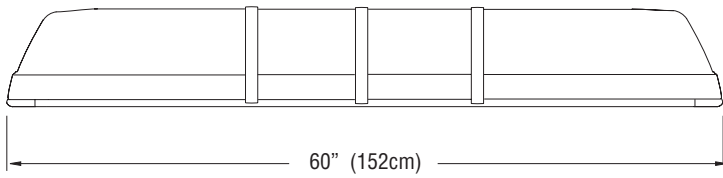

*All Whelen Products are proudly designed and manufactured in the U.S.A.*
