

Strip-Lite™ Series

MULTI-PURPOSE SURFACE MOUNTED LED LIGHTHEAD

LIGHTHEADS

Strip-Lite has a slim rectangular shape that offers mounting versatility in tight spaces.

A compact warning light that provides 14 flash patterns including steady-burn. Surface mounting and small size makes it ideal for areas on your vehicle where effective warning was not possible before.

Warning lights are available in red, amber, blue or white LEDs.

Brake/tail exceeds SAE specifications and has two flash patterns, including SignalAlert™. Also available with amber turn signals. When activated, SignalAlert provides a 4 burst flicker before becoming Steady On for a more effective eye catching pattern.

Tank status lights are the four color LED light version which indicates fluid level on water tank. Green light indicates a full tank, blue is half, amber is a quarter full and red means empty. (Tank sensor customer supplied).

Compartment lighting is available in two levels of intensity.

Put lighting on stairs and doors, under handrails and steps, in trunks compartments and on motorcycle boxes... wherever a need for low current, high performance surface mounted light could be used.

FEATURES

- Slim; less than 1" (25mm) H x 11-1/2" (292mm) W.
- Sturdy. Encapsulated, no glass or filaments to break, rated for 100,000 hours of operation.
- Low current consumption.
- Surface mounted. Only a small wire access hole and two screws to install.
- Available in four styles, warning, brake/tail, tank status light and compartment light models.
- Warning and brake/tail have color lens standard, while the brake/tail/turn model offers a clear lens.
- Tank Status light; four color LEDs, green, blue, amber and red, provide bright, easy to identify indication of watertank status. Individual switching control for each color.
(Requires customer supplied tank sensors).
- Compartment lights feature 6 or 18 Super-LEDs and clear frosted lens for increased light output and light spread.
- Warning lights have 14 flash patterns, including steady-burn.
- All Strip-Lites have an unconditional five year HDP, Heavy-Duty Professional® Warranty.

WHELEN®

MODELS

- PS*00F*R** Warning light, 14 Scan-Lock™ flash patterns including steady-burn. (Amber or Red Only).
- PSR00XRR**..... Brake/tail, 2 patterns.
- PSRASXCR**..... Brake/tail with amber turn signal.
