

NEW PRODUCT!

Model 295SLS6 Series

ELECTRONIC SIREN & LIGHTS CONTROLLER

The 295SLS6 Series controller combines FLEXIBILITY and USEABILITY to provide superior siren and lights control in the most adverse conditions.

The Siren and Lights Controller is a rugged, compact, self-contained unit that is plug compatible to 295HFSA6 and is designed for under-dash or console mounting.

The Siren and Lights Controller has a total of nine individually programmable switches for lights and siren function.

FEATURES

- Meets SAE J1849 and California Title 13 requirements
- Master switch is programmable for On/Off operation of the siren only, or siren and switch function
