

# Wing Plow Tip Lighting System

TIR3 Super-LED™ WARNING SYSTEM

Plow Wing Tip Lighting System

**Put an added measure of safety on your DOT warning system with Whelen TIR3 Super-LED™ snowplow wing tip lights.**

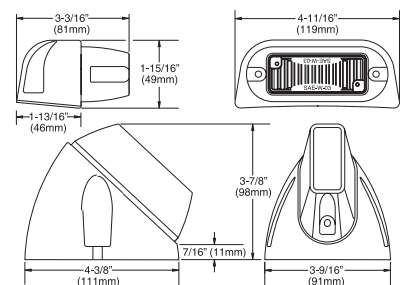

For complete coverage, the two high-intensity Super-LED light system provides high visibility warning in both the wing plow operating and stowed travel position. Each high impact TIR3 Super-LED™ lighthouse is fully encapsulated in a cast aluminum housing. Twenty feet of heavy duty TPR cabling with built-in strain-relief connectors complete the weather, vibration and salt/chemical resistant package.

## FEATURES

- Super effective TIR3 Super-LED light modules with individual built-in flashers.
- Set of two lighthouses provides complete coverage whether snowplow wing is operating while in use, or in the stowed travel position.
- Fully encapsulated housing. LED modules are vibration, water and salt/chemical-proof.
- Rugged, cast aluminum housings are built to take tough working conditions
- Waterproof heavy duty TPR cabling with built-in strain relief connectors, standard.

## MODELS

- WFLOW1A:** Amber for use when Wing Plow is operating.
- WFLOW2A:** Amber, for use when Wing Plow is stowed for travel.
- WFLOW3AA:** Includes (1) WFLOW1A and (1) WFLOW2A for complete coverage.

Available in amber
