

FPU2000 Series

WHELEN[®]
"Our sirens speak for themselves"[™]

Front Panel Upgrades for WPS2004/8/12 and WPS2016

An economical way of updating your existing WPS Siren System is to replace the electronics, upgrading to the latest technology.

Often the speaker array, outlasts the electronics. Instead of replacing the entire station, replace just the electronics. All of the latest assembled and tested components mounted on the swing-out panel, ready to replace the existing panel. Easy installation at a fraction of the cost of a new siren.

Front Panel Features All Models:

- Motherboard
- Power Amplifiers with 4-100 Watt Output Channels
- Battery Charger
- ESC2020 Electronic Siren Controller
- Pressure Sensitive Switch Pad
- New Harnesses

Front Panel Upgrade Models:

- **FPU2004** - For Model WPS2004, One Power Amplifier with 4-100 Watt Output Channels
- **FPU2008** - For Model WPS2008, Two Power Amplifiers each with 4-100 Watt Output Channels
- **FPU2012** - For Model WPS2012, Three Power Amplifiers each with 4-100 Watt Output Channels
- **FPU2016** - For Model WPS2016, Four Power Amplifiers each with 4-100 Watt Output Channels

FACTORY QUOTATION REQUIRED FOR ALL FRONT PANEL UPGRADES
