

FPU3000

WHELEN[®]
"Our sirens speak for themselves"[™]

Front Panel Upgrade for WPS3000

An economical way of updating your existing WPS Siren System is to replace the electronics, upgrading to the latest technology.

Often the speaker array, outlasts the electronics. Instead of replacing the entire station, replace just the electronics. All of the latest assembled and tested components mounted on the swing-out panel, ready to replace the existing panel. Easy installation at a fraction of the cost of a new siren.

Front Panel Features:

- One Rotor Control
- Motherboard
- Four Power Amplifiers each with 4-100 Watt Output Channels
- ESC2020 Electronic Siren Controller
- Battery Charger
- Pressure Sensitive Switch Pad
- New Harnesses

Front Panel Upgrade Models:

- **FPU3000** - For Model WPS3000, Four Power Amplifiers each with 4-100 Watt Output Channels

FACTORY QUOTATION REQUIRED FOR ALL FRONT PANEL UPGRADES
