## PRODUCT SUPERSESSION

Whelen Engineering Announces the Retirement of the Inner Edge® RTX Series **effective 12/20/18.**

The newly designed, low-profile Inner Edge® RST™ Series better utilizes vehicle contours, providing higher visibility and a custom fit. Whelen's all-new Proclera™ Silicone Optics increase clarity and have the power to punch through tints. The Inner Edge RST Series is available with SOLO™, DUO™, or TRIO™ technology.

The Inner Edge RST Series now features BroadBand Blue™. BroadBand Blue delivers a higher intensity, creates a larger optical image, and produces a more consistent color, all while being easier on the eyes -especially at night.

**CURRENT:** Inner Edge RTX Series

**REPLACEMENT:** Inner Edge RST Series
