

B6T and B6LED Series Beacons provide tailboard lighting designed for use in NFPA 1901 Lighting Packages. These beacons combine 360° warning with directional lower level lighting in a single fixture.

FEATURES

- Linear Super-LED® directional 700 Series lighthouse, Scene Light, or Brake/Tail/Turn with built-in electronic flasher
- Built-in flasher has 20 Scan-Lock™ flash patterns, Hi/Low intensity, cruise mode, and synchronization feature
- Polished cast aluminum housing
- Casting mounts to a flat surface using three Fastex™ screw grommets and three #10 fasteners
- Fixture for combination/flat/permanent mounting offers simple installation and eliminates body panel cutouts for directional lighthoods
- When used as a pair with Red rotators alone, meets NFPA photometric requirements for Zone C, Upper
- Red, Amber, or Blue domes and lenses meet NFPA applications only. Refer to our NFPA 1901 Specification Lighting Packages for more information

B6LED

B6T Series

- Dual rotating halogen reflector and Linear Super-LED directional 700 Series lighthouse
- Rotating beacon uses a snap-in 50 watt halogen lamp
- 12 or 24 VDC
- Three year warranty on motor assembly

B6LED Series

- 360° Super-LED® beacon and Linear Super-LED directional 700 Series lighthouse
- 28 Scan-Lock flash patterns and four simulated rotating patterns
- 12 VDC
- Five year warranty
