

SnowAway™

Heated Lens System

Introducing industry-first technology for preventing snow buildup on rear corner post lights in most conditions.

FEATURES

- Tempered glass heats uniformly and keeps lenses at 45°F in most conditions
- Switches on automatically when the temperature drops below 40°F, providing zero operator involvement
- LED indicator light in the cab automatically notifies operator that the system is on or off
- On/Off switch located in the cab allows operator to manually control the system if needed
- Tempered glass uses between 1-4 amps (colder temperature increases amp draw)
- Housing and lens design accommodates three lightheads
- 14 gauge wire included

3 Light Housing with H400SD

MODELS

H400SD	400 Series Heated Lens System
H400VD	400 V-Series™ Heated Lens System

NOTE: DOT lighting system sold separately. Option includes heated lens system only. Works with following system models: DOT3401D, DOT3402D, DOT3404D, DOT3405D, DOT3406D and DOT3410D
