

Mic Clip

TEMPORARY PRODUCT REPLACEMENT

MA:0001 • 03/2022

As Whelen continues to navigate global challenges in the supply chain, we are forced to make decisions that may impact the products our customers receive. Currently, we are unable procure the microphone clip (pictured below) that is used with several of our products.

To avoid unnecessary shipping delays, effective immediately, Whelen will be temporarily shipping the following products with the "New Mic Clip" seen below.

You may notice that the mounting footprint looks slightly different. However, the mounting hole pattern is the same and does not affect the functionality or installation of the product. This replacement will remain in effect until we can make a transition back to the "Old Mic Clip." If you have any questions, please reach out to your Whelen Sales Representative.
