A comprehensive guide to Whelen's  
lighting and warning products

**WHELEN**<sup>®</sup>  
MANUFACTURED IN AMERICA

# LIGHTHEADS

## LINSV2™ V-Series™

Utilizing multiple planes of light in one lighthouse, LINSV2 V-Series lighthouses are two-in-one: 180° warning and puddle lights for under surface mounting. Includes glamour cap.

## LINV2™ V-Series

Utilizing multiple planes of light in one lighthouse, LINV2 V-Series lighthouses are two-in-one: 180° warning and puddle lights for surface mounting. Includes Black flange.

## V23™ V-Series

Utilizing multiple planes of light in one lighthouse, V23 V-Series lighthouses are three-in-one: 180° wide-angle warning, illumination, and puddle light.

## Vertex™ Series

Vertex Series lighthouses offer three different optical light output models: omni-directional, side emitter, and directional. These small lighthouses install easily with a 1" hole and utilize an in-line lamp driver. Vertex lighthouses are available in SOLO™ and DUO™ models.

## Micron™ Series

Compact and durable Micron series lighthouses are available in single or split colors. Models are available in surface or stud mount.

## ION Series

Engineered for optimal versatility, ION Series lighthouses provide high-intensity warning or illumination. Designed to mount in many applications, ION lighthouses are available in directional, wide-angle, SOLO, DUO (two-color interleaved), or TRIO™ (three-color interleaved) models. Models are available in surface or universal mount.

## ION V-Series

Utilizing multiple planes of light in one lighthouse, ION V-Series lighthouses are available in three-in-one combination or single-color warning models. Models are available in surface or universal mount.

## ION T-Series™

The ION T-Series features Linear Super-LED® technology with a sleek, low-profile design, and a depth of only 1.5". ION T-Series lighthouses are available in SOLO (single color), split, or DUO models.

## ION Mini T-Series™

The ION Mini T-Series is the smallest ION available and features Linear Super-LED® technology, with a sleek, low-profile design. The depth is only .50" and the length is just 3.34". The integration of Whelen's patented E Block™ technology creates a watertight seal around the units stranded wires to prevent moisture from entering the lighthouse. ION Mini T-Series lighthouses are available in SOLO or DUO models.

## M2 Series

With a unique lens shape and patented Linear-LED® designed reflector assembly, the M2 Series is completely illuminated for unmatched high-intensity warning and low current consumption. The M2 Series is available in standard or wide-angle models.

## Arges®

Arges is Whelen's remote spotlight designed with officer safety in mind. Its small footprint can help reduce blind spots while driving and its all-new collision-safe control head eliminates the need for an internal handle. Arges works seamlessly with CenCom Core® and features revolutionary control, with 360° of continuous rotation and a 180° tilt range.

# LICENSE PLATE BRACKETS

## ION™ License Plate Bracket

Universal license plate bracket for two ION lightheads.

## ION T-Series™ License Plate Bracket

Universal license plate bracket for two ION T-Series lightheads.

## ION Mini T-Series™ License Plate Bracket

Universal license plate bracket for two ION Mini T-Series lightheads.

# DASH & DECK

## Avenger® II Series

The Avenger II Series features combination Linear/TIR optics for high-intensity warning and illumination and a smaller profile to maximize space for optimal versatility. The Avenger II is available in SOLO™, DUO™, or TRIO™ models.

# LIGHT ARRAYS

## WeCanX® Tracer™ Series

Engineered to increase vehicle visibility, the WeCanX Tracers connect over the WeCanX network and offer more customization than ever before. Though similar in design to its predecessor, the WeCanX Tracer uses enhanced optics to provide dynamic lighting output and control. Lightheads are daisy-chained together in lengths of one to six modules, with each module containing four individually controlled segments for a contiguous lighting display and expanded configuration to meet a variety of needs. Upgraded lens design and IP67 rating for dust and water resistance improve performance and durability. The WeCanX Tracer is available in SOLO, DUO, or TRIO models.

# LIGHTBARS

## Inner Edge® FST™ Series

The low-profile Inner Edge FST Series mounts to visor anchor points and better utilizes vehicle contours, providing higher visibility and a custom fit. Increase clarity with Whelen's Proclera® Silicone Optics. The Inner Edge FST Series is available in SOLO™, DUO™, or TRIO™ models with WeCanX® technology.

## Inner Edge RST™ Series

The low-profile Inner Edge RST Series better utilizes vehicle contours by mounting to either the rear deck or the rear headliner of various vehicles, providing higher visibility and a custom fit. Increase clarity with Whelen's Proclera Silicone Optics. The Inner Edge RST Series is available in SOLO, DUO, or TRIO models with WeCanX or low-current technology.

 **WARNING:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit [whelen.com/regulatory](http://whelen.com/regulatory).

# WHELEN CLOUD PLATFORM®

## **NEW! Whelen Cloud Platform**

The Whelen Cloud Platform is a cloud-based vehicle communication platform that sends and receives data through cellular networks. Manage vehicle configurations and firmware updates over-the-air, create faster response times with real-time information to pinpoint vehicle locations, and easily organize your fleet and Whelen product information. New features and updates are continuously being added to the Whelen Cloud Platform, ensuring your fleet is always up-to-date with the latest technologies and capabilities.

## **Vehicle Safety Gateway® (VSG®)**

The Vehicle Safety Gateway (VSG) bridges connectivity to provide over-the-air communication from the Whelen Cloud Platform to CenCom Core® and WeCanX® devices. The VSG communicates to the Whelen Cloud using its own SIM card and a separate low-profile antenna.

# CONTROL SYSTEMS

## CenCom Core®

With the greatest configurability, speed, and expansion yet, CenCom Core is a system created to enhance officer safety with advanced automation and remote connectivity. Every aspect of Core is engineered for performance and designed for vast configuration, allowing for access to every connector and fuse from the top of the box. Core features WeCanX®, our newest CAN-based communication system. Providing true system synchronization, greater speed capabilities, expanded peripheral add-ons, and full support of diagnostics, WeCanX is designed for optimal situational awareness programming.

## Vehicle-to-Vehicle (V2V) Sync

A calm scene is a safe scene with V2V sync. Automatically synchronize lights and tones on vehicles within any proximity to aid approaching motorists.

## SA315P/SA315U Siren Speaker

The SA315P is a multi-port, 100-watt speaker with a nylon composite housing that easily installs to the radiator cross member to deliver powerful traffic clearing capability.

## Howler™ Siren & Speaker

Adding a layer of warning for intersections and high risk areas when used with your 100/200-watt siren amplifier, Howler provides deep tones to penetrate other vehicles, alerting drivers and pedestrians of your approach. Available with WeCanX technology.

## Control Heads

Ergonomically designed for situational awareness of the officer, various control heads are compatible with Whelen systems. Completely configurable by the user, these control heads are designed with features such as tick marks, raised surfaces, and recessed areas for ease of use, allowing officers to focus on the road.

### CCTL5

Includes handheld combination microphone and controller with a 5-position progressive light/siren control, 9 push-buttons, and a microphone extension cable.

### CCTL6

3-section control head with a 4-position slide switch, 13 push-buttons, 7-position rotary knob, microphone, and microphone extension cable.

### CCTL7

3-section control head with a 4-position slide switch, 21 push-buttons, microphone, and microphone extension cable.

### NEW! CCTL8

Includes 6 push-buttons, a 4-position slide switch, and microphone.

## 295SLS6 Series Hands-Free Electronic Siren

Engineered for under-dash or console mounting, the compact 295SLS6 Series is a siren and light controller with a hard-wired or plug-in noise canceling microphone. Easily change functions with nine individually programmable switches for full customization.
