Slim-Miser™ Series

DUAL LED DASH LIGHT

The economic and reliable Slim-Miser Series is engineered for low profile, high intensity warning, and is simple to transfer from vehicle to vehicle. The lightweight polycarbonate housing with rounded corners provides optimal safety in the event of a vehicle accident.

FEATURES

- Available in single or split colors
- Low current consumption
- Hard-coated lenses minimize UV damage and resist scratches
- Swivel bracket with three suction cups securely holds the dash light to the windshield, minimizing flashback
- Black polycarbonate housing
- 17 Scan-Lock™ flash patterns (seven with Phase 1 and Phase 2, plus three others)
- Scan-Lock button for flash pattern control is located on the back of the housing
- Includes an 8' cord with cigar plug featuring an On/Off switch with LED "On" indicator
- Dimensions: 1.63" (42mm) H, 2.75" (70mm) D, 12.88" (326mm) L
- Weight: 11.2 oz
- Five year warranty

SMLLAA	Amber/Amber
SMLLBB	Blue/Blue
