

WeCan[®] Electronic Control Head

Easy to install and program, the WeCan Electronic Control Head replaces the standard ECM (Electronic Control Module) and can be handheld or mounted to the dash or console.

WCC9

FEATURES

- Control lights and Traffic Advisor[™] functions from a single keypad
- Three-position slide switch
- Six pre-programmed push-buttons
- Small 22 gauge, two conductor cable connects to the WeCan lightbar for easy installation
- 10 pre-programmed warning configurations via four dip switches are located on the rear of the controller
- No computer is required for programming
- Push-buttons feature LED backlighting for nighttime viewing
- Membrane switches provide tactile feedback of activation and are equipped with a solid rubber overlay for moisture resistance
- Surface mounting plate allows for vertical or horizontal mounting of control head
- Five conductor, 3' input/output harness standard
- Includes function labels for customization
- May be used with existing WeCan lightbars or substituted for the WeCan ECM at the time of lightbar purchase
