

Inner Edge® RST™ Series

SUPER-LED® REAR LIGHTBARS

The newly designed, low-profile Inner Edge RST Series better utilizes vehicle contours, providing higher visibility and a custom fit. Whelen's all-new, patent pending Proclera® Silicone Optics increase clarity and have the power to punch through tints. The Inner Edge RST Series is available with SOLO™, DUO™, or TRIO™ technology.

The Inner Edge RST Series now features BroadBand Blue™. BroadBand Blue delivers a higher intensity, creates a larger optical image, and produces a more consistent color, all while being easier on the eyes — especially at night.
