

WeCanX[®] 16-Output Expansion Module

NEW PRODUCT • MARKET ADVISORY

MA:0061 • 11/2023

A new WeCanX[®] Expansion Module to support CenCom Core[®] control systems is now available in 10-30VDC. While some expansion modules operate exclusively on 12 VDC power, the new 16-output expansion module supports systems operating across the 10-30 VDC range, such as Core-R[™], Core-C[™], and Core-S[™] which is available in a 24VDC variant. This new offering will provide additional options and increased capabilities for system configurations.

This new offering will provide additional options and increased capabilities for system configurations.
