

2200 Series Traffic Advisor™

PRODUCT UPDATE • MARKET ADVISORY

MA:0062 • 11/2023

Our popular Traffic Advisor™ is now available without WeCanX® to provide you with even more lighting solutions for a variety of applications such as ambulances and work trucks. The **2200 Series Traffic Advisor** features the same sleek design, versatility, and reliability of its WeCanX counterpart in an updated housing using our powerful ION™ T-Series™ lighthoods. This Traffic Advisor can be used with either a TACTL5 control head (included) or a CTA module (purchased separately) providing additional versatility, making it an ideal lighting solution to suit your unique needs.

Please refer to the table below for model numbers and reach out to your Whelen sales representative with any questions.
